Gen. Beauregard Sends a Flag of Truce.

(Special to the Baltimore American.)

FLAG-SHIP DINSMORE, OFF CHARLESTON, AUGUST 16.

Since Monday events here have been rather unimportant.

The rebels have been firing at the gunboats, but with little damage to either side.

The Government has no advice from Charleston later than Friday morning, except General Rosecrans' telegram, stating that the Charleston Rebels of the 10th, sold the bombardment of Saturday was awful. The fire of the land and naval batteries was mostly concentrated on Sumpter. The tone of the R-bell's dispatch is, depending.

The Potomac still continues actively engaged in attacking blockaders on the river. Another battle of Sumpter, New York, and ordered to the city to go to the ranks of the regular army to Second Lieutenant are announced to day.

In the Winchester-Lynchburg Court a large number of orders and other papers were introduced, and by permission of the Court, commented on by General Milroy. The proceedings were long and tedious, reflecting no particular credit upon any one connected with the effort.

(Special to the Baltimore American.)

CHARLESTON, August 16, 5 p. m.

The rebels have piled sand-bags on the wharf against the rear wall of Fort Sumpter, forty feet high, completely protecting the magazine from the river on the shore batteries. But few shots were fired during Sunday.

It is generally understood that the assault is to be made to-morrow. The weather promises favorable for operations.

General Gillmore's army is much better. A private note, dated at Morris Island at 10 o'clock p. m. of the 15th, says: "We will have Sumpter to-morrow, certain."

NEW YORK, Aug. 19.—The draft in the Sixth District is progressing. There is no trouble anywhere, nor any apprehension. All business is progressing as usual.

The steamer Empire City, from Charleston, arrived in New York on the 18th. The Port Royal News says the rebel steamer Robert Habershaw exploded a boiler and was destroyed, destroying the vessel and killing all the crew.

Gen. Meade, commanding at Savannah, is impressing one of all the able-bodied slaves of Georgia, for work on the fortifications. All negroes in Savannah have been seized.

Several heavy guns have been sent from Savannah to Charleston.

The ram Savannah, made to the Atlantic, on the 18th, intended to go to the mouth of the river on the 10th, but broke one of her engines and had to return.

The Tribune has the following: Headquarters Army of Potomac, Aug. 17.—There are emphatic rumors of a movement in this army. The army left Alexandria on the 15th, and is now at Washington.

The time not having arrived for an advance on Richmond, the army of the Potomac will probably be sent to the front to defend the city and the line of the Potomac.

After operations at the South have been successful it will march on the rebel capital, and will have troops approaching from other directions.

A Times special says advice from the army to-night states that the impression prevails that the rebels are preparing for a cavalry movement on our rear to destroy the railroad.
